

Centralized. Simplified. Your Post-Grad and Career Office Satisfaction surveys, now online!

College Central is pleased to introduce an extraordinary new Survey software system that allows you to conduct the two most important surveys your career office needs: Post-Graduate and Office Services Satisfaction.

As with every product in our software suite, you can trust CCN's Survey System to be powerful, easy to use, and an excellent value. You'll be up and running quickly to retrieve and apply the information your school requires. Plus, it's just as reliable as other CCN software you may be currently using.

Choose from a library of stock surveys or customize a survey to address your school-specific concerns. The process begins with an easy upload of participant contact information directly from your data file. To complete the survey, students and alumni are directed to a login page branded with your school logo and colors.

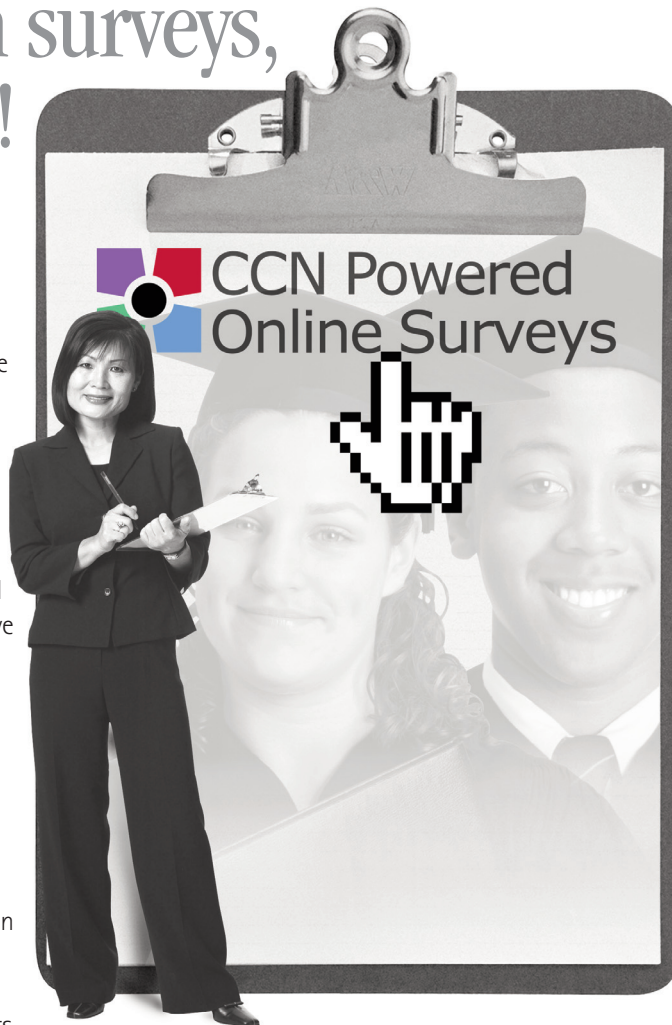

Logically organized, comprehensive, and confidential online reports are then compiled and delivered to your secure administration area for review. Respondent data can also be easily downloaded for use in other reporting applications.

With direct access at any time, you can monitor how well your students and office are doing. Simply put, CCN Surveys work! Quickly. Efficiently. Accurately.

You get this and much more at a price that won't break your budget.

CCN's comprehensive and unmatched suite of time-saving online services is based upon 12 years' experience and feedback working with colleges and universities. Our solutions provide the rock-solid office tools that will quickly have you up and running your own surveys.

CCN Survey System Quick Facts:

- 1 The Perfect Career Services Office Bundle –**
The Post-graduate and Career Services Office Satisfaction surveys now make it easy and convenient for career centers to collect, analyze, and apply critical data about recent grads and their own office through an integrated system of surveys and reporting.
- 2 Fully Automated System –**
No manual data entry is required. You have 100% accountability of your data via online reporting and downloads. Respondent contact info is preloaded from your existing data files, saving you time and money.
- 3 Flexible and User-friendly –**
Choose either or both survey modules. Select standard questions from our library, or customize them to better suite your needs. Plus, CCN can handle all of your surveys for one affordable yearly fee.
- 4 Special Pricing Package –**
Either Survey module is just \$750 complete for use during the school year. Or purchase both survey modules for just \$1,000 – a savings of \$250!

There is no extra charge if you need to make slight modifications. However, you can make more extensive changes for a fee. We can also provide a price quote for extensive survey customization.
- 5 Proven Track Record –**
CCN powers over 500 college and university campus career centers via its Career Services Central ASP, and many more colleges and universities through its Job Fair Central, Live Event Central, and Teacher Fair Central ASPs.
